PROFESSIONAL SUMMARY

Final-year BSc. CSIT student with hands-on experience building responsive, production-ready web applications using React.js, JavaScript, HTML5, and CSS3. Developed a full e-commerce frontend and a personal portfolio website, working with component-based architecture, client-side routing, and state management. Strong foundation in responsive design, Git/GitHub version control, and REST API integration. Seeking a Frontend Developer internship to apply and grow these skills within a collaborative engineering team.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frameworks & Libraries: React.js, React Router, Context API

Styling: Tailwind CSS, Responsive Web Design, Flexbox, CSS Grid

Tools & Platforms: Git, GitHub, Vite, VS Code, Vercel, npm

PROJECTS

AURA — AI-Powered Jewellery E-Commerce Frontend | *React.js, Vite, React Router, Context API, CSS3*

aura-jewellery-blue.vercel.app

- Built and deployed a responsive e-commerce frontend for a jewellery brand using React.js and Vite, including product filtering, search, and category-based navigation (earrings, necklaces, and more)
- Implemented cart management and global state using React Context API, and client-side routing with React Router across Home, Login, and Register pages
- Developed a reusable, component-based UI architecture (Navbar, Hero, Orbit, About, Reviews, Footer) with custom CSS styling
- Designed and implemented UI/UX for a branded jewellery e-commerce experience targeting the Nepal market

Personal Portfolio Website | *React.js, Vite, CSS3*

manisha-portfolio-orcin.vercel.app

- Designed and developed a responsive personal portfolio website with About, Projects, Education, and Contact sections using a dark theme with gradient accents
- Resolved responsive design challenges including flexbox layout issues, media query breakpoints, and CSS gradient text effects
- Built and deployed using React 19 and Vite for optimized production builds

To-Do List Application | *React.js, Vite, CSS3*

todo-inky-nine-75.vercel.app

- Built and deployed a single-page task management application with add, complete, and delete functionality, and duplicate-entry validation
- Implemented a dark/light theme toggle using conditional rendering and CSS custom properties
- Structured the UI into reusable, stateful React components using hooks (useState, useEffect)

EDUCATION

Bachelor of Science in Computer Science and Information Technology (BSc. CSIT)

Nepathya College, Tribhuvan University — 8th Semester (Final Year), Expected 2026
